Resource group - A container that holds related resources for an Azure solution. The resource group can include all the resources for the solution, or only those resources that you want to manage as a group. You decide how you want to allocate resources to resource groups based on what makes the most sense for your organization. [Learn more](#)

TASK 2: Enforce Tag Using Azure Policy (DENY without tag)

The screenshot shows the Microsoft Azure portal interface. At the top, there's a navigation bar with 'Microsoft Azure', an 'Upgrade' button, a search bar, and a 'Copilot' button. Below the navigation bar, the breadcrumb trail is 'Home > Policy | Definitions > Require a tag and its value on resources > Assign policy'. The 'Assign policy' page has several tabs: 'Basics', 'Parameters', 'Remediation', 'Non-compliance messages', and 'Review + create'. The 'Basics' tab is selected. It displays the following information:

- Scope:** Azure subscription 1
- Exclusions:** Azure subscription 1/az104-rg2
- Policy definition:** Require a tag and its value on resources
- Assignment name:** Require a tag and its value on resources
- Version (preview):** 1.0.*
- Description:** Require Cost Center tag on all resources
- Policy enforcement:** Default
- Assigned by:** Mirza Usman Baig

Below the 'Basics' tab, there are sections for 'Advanced', 'Parameters', 'Remediation', and 'Non-compliance messages'. The 'Advanced' section shows 'Resource selectors' and 'Overrides' as 'No selectors associated with this assignment.' and 'No overrides associated with this assignment.' respectively. The 'Parameters' section shows 'Tag Name' as 'Cost Center' and 'Tag Value' as '000'. The 'Remediation' section shows 'Create a Managed identity' as 'No managed identity associated with this assignment.' The 'Non-compliance messages' section shows 'Non-compliance messages' as 'No non-compliance messages associated with this assignment.'

At the bottom of the 'Assign policy' page, there are buttons for 'Previous', 'Next', and 'Create'. The 'Create' button is highlighted in blue. There is also a 'Give feedback' link.

The screenshot shows an error message in the Azure portal. The message is titled 'Failed to submit deployment' with a red exclamation mark icon. The text of the message is:

Error submitting the deployment request.
Additional details from the underlying API that might be helpful: The subscription 'a5742b9d-9daa-4a08-a35e-c83a0f90d04b' is disabled and therefore marked as read only. You cannot perform any write actions on this subscription until it is re-enabled.

Below the message, there is a button labeled 'Help me troubleshoot' with a question mark icon.

TASK 4: Resource Lock (Block Delete)

The screenshot displays the Microsoft Azure portal interface. On the left, the 'Resource Manager | Resource groups' sidebar is visible. The main content area shows the 'az104-rg2' resource group. A 'Delete a resource group' dialog box is open, indicating that the resource group and its dependent resources will be permanently deleted. The dialog lists the resource group 'az104-rg2' and its dependent resources, including 'storageemul1'. A 'Delete confirmation' message states: 'Deleting this resource group and its dependent resources is a permanent action and cannot be undone.' Below the confirmation, there is a text input field for the resource group name to confirm deletion, with 'az104-rg2' entered. A 'Delete' button is visible at the bottom of the dialog.

Below the main dialog, a smaller error message is shown: 'Delete resource group az104-rg2 failed'. The message states: 'The resource group az104-rg2 is locked and can't be deleted. Click here to manage locks for this resource group.' A 'Help me troubleshoot' button is provided at the bottom of the error message.
